

The diagram illustrates a two-layer software architecture. A light gray rectangular box represents the overall system. Inside this box, there is a smaller green rectangular box. The top portion of the gray box is labeled 'Schnittstelle (sichtbarer Bereich)' and the bottom portion is labeled 'Implementation (unsichtbarer Bereich)'. Above the gray box, there are two vertical black arrows: one pointing upwards and one pointing downwards, indicating interaction with the interface layer.

Schnittstelle  
(sichtbarer Bereich)

Implementation  
(unsichtbarer Bereich)
