```java
layers = createApplicationLayers();

layers.get(0).findLoader("de.uhh.ui")
        .loadClass("de.uhh.ui.Main")
        .getMethod("main", String[].class)
        .invoke(null, (Object) new String[0]);

ServiceLoader<ServiceInterface> plugins = ServiceLoader
        .load(l, ServiceInterface.class);
plugins.findFirst().get().getServiceName();
```
